Tucuma Butter

organic

Tucuma Butter is a vegetable butter obtained from the seeds of the tucuma palm (*Astrocaryum vulgare*), native to the Brazilian Amazon region. Characterized by its balanced fatty acid composition and pleasant sensory profile, it is a versatile cosmetic ingredient for skin and hair care formulations. It contributes to smooth textures, good spreadability and a soft, lightweight skin feel while supporting formulation structure and consistency.

Performance & Properties

- Pleasant, silky skin feel
- Lightweight and smooth sensory profile
- Good spreadability in cosmetic formulations
- Suitable for creating silicone-like sensory characteristics
- Suitable for emulsion and anhydrous systems
- Vegetable butter with a balanced fatty acid composition

Silky Sensory and Texture Support

Applications & Suitability

- Skin care creams and lotions
- Body care formulations
- Balms and body butters
- Lip care products
- Stick formulations
- Hair masks and conditioners
- Styling and shine care products
- Natural and naturally derived cosmetic concepts

The values provided are typical product guide values. We are happy to provide you with specifications and certificates upon request.
